Fully on-line, ITV and FEEDS - no web assisted courses totaled

FAU supports three online platforms:
- BlackBoard
- E-college

Interactive Television and Videotape:
Credit courses in Business, Engineering, Nursing and Science are broadcast to FAU distributed campuses and local participating business facilities via ITFS microwave, compressed video or videotape.

FEEDS:
FEEDS: The Florida Engineering Education Delivery System is a statewide system whereby graduate level engineering courses are delivered to industry sites and cooperating centers around the state. FEEDS is a cooperative effort among the colleges of engineering and other Florida institutions. It is possible to earn a MS in Engineering through this program.
